

**REMARKS**

During a review of this application, the undersigned noted that the formal drawings submitted on October 15, 2003 contained several errors. Specifically, in Figures 5, 6, 7 and 9, the substrates 60, 70 included mounting recesses 290 (shown clearly, for example, in Fig. 22), and the manifold portions 20, 35, and 40 included complementary recesses 295 (shown clearly, for example in Fig. 22) that are described with respect to the embodiment of Figs. 14-28, but not with respect to the embodiment of Figs. 1-13. The undersigned points out that the informal drawings were correct as initially filed, and thus, these changes do not add new matter, but are solely to clarify the figures and avoid confusion. Should the Examiner have any questions relating to these drawing changes, he or she is respectfully requested to call the undersigned at the number below.

Respectfully submitted,  
*Kim N. Vu, Applicant*
